Recent Project Highlights

Community Lifts Five Drinking Water Advisories

With construction complete on a new water treatment plant, reservoir and water supply system, more than 321 homes in the Tyendinaga Mohawk Territory now have access to fresh, clean drinking water. This was an important project for the Mohawks of the Bay of Quinte community, enabling them to lift five long-standing drinking water advisories.

Connecting Students to Business and Tech Opportunities

Delivered amidst the pandemic in just 11 months, Humber College's new International Graduate School offers students a range of specialized, career-oriented business and technology programs. The 40,000 sq. ft. facility integrates students with Toronto's downtown core and connects them with networking opportunities to help them achieve their professional goals.

A Change in Leadership

After more than 30 years at the helm of Colliers Project Leaders Canada and Middle East, our founder and President Franklin Holtforster has decided to retire. Olivia MacAngus, our current Chief Development Officer, will succeed as President effective June 1, 2022.

"I am proud to be appointed to this role and I would like to thank Franklin for his confidence in me," said MacAngus. "I am honoured to have the support of our leadership team and be entrusted with this legacy."

\$24.2 Million in ISC Funding Secured for New K4-8 School

"The construction of the new elementary school reflects the growing requirements that we have as a community. This begins with our children and youth...Our future depends on promoting an environment conducive to learning in a way that reflects both modern curriculum and Anishnawbe Aadziwin, who we are as a people," said Gimaa Alan Ozawanimki, Sagamok Anishnawbek. Our Northern Ontario team is proudly supporting this important project, from initiation to closeout.

Supporting the Cleanup of Lytton, British Columbia

Eight months after wildfires devastated the Village of Lytton, debris removal and remediation work has begun. With offices nationwide, our Western team is passionate about providing support to the affected communities. James Heigh, Principal, is leading our project management efforts to support the remediation of Lytton and protection of the Nlaka'pamux heritage. "At this point, we're confident we're going to meet the timeline set out by the mayor," said James.

Shoal Lake #40 Water Treatment Plant Wins OPWA Award

The Ontario Public Works Association presented the 2022 Public Works Project of the Year for Small Municipalities and First Nations award to the Shoal Lake #40 First Nation. The development of the new water treatment plant has created opportunities for local procurement and employment in the region and enabled the community to lift a 24-year boil water advisory. Our Northern Ontario team is proud to have partnered with the Shoal Lake #40 First Nation to deliver this important community project.
